## **RISK FACTORS**

Investing in the Notes involves a number of risks. See the risks described in “Risk Factors” beginning on page S-3 of the accompanying Prospectus Supplement and those set forth below. Accordingly, prospective investors should consult their financial and legal advisors as to the risks entailed by an investment in the Notes and the suitability of the Notes in light of their particular circumstances.

### **Early Redemption Risk.**

The Issuer retains the option to redeem the Notes, in whole but not in part, on the Redemption Date. It is more likely that the Issuer will redeem the Notes in whole prior to their Maturity Date to the extent that the interest payable on the Notes is greater than the interest that would be payable on other instruments of the Issuer of comparable maturity, terms and credit rating trading in the market. If the Notes are redeemed, in whole but not in part, prior to their Maturity Date, you will receive no further interest payments from the Notes redeemed and may have to re-invest the proceeds in a lower rate environment.

### **Inclusion Of Projected Profit From Hedging Is Likely To Adversely Affect Secondary Market Prices.**

Assuming no change in market conditions or any other relevant factors, the price, if any, at which the Agent is willing to purchase the Notes in secondary market transactions will likely be lower than the Issue Price, because the Issue Price included, and secondary market prices are likely to exclude, the projected profit included in the cost of hedging the obligations under the Notes. In addition, any such prices may differ from values determined by pricing models used by the Agent, as a result of dealer discounts, mark-ups or other transaction costs.

## **UNITED STATES FEDERAL TAXATION**

As discussed in the section of the accompanying Prospectus Supplement entitled “United States Federal Taxation,” withholding under legislation commonly referred to as “FATCA” (if applicable) will generally apply to amounts treated as interest paid with respect to the Notes and to the payment of gross proceeds of a disposition (including a retirement) of the Notes. However, regulations proposed by the U.S. Treasury Department on December 18, 2018 indicate an intent to eliminate the requirement under “FATCA” of withholding on payments of gross proceeds (other than amounts treated as interest). The U.S. Treasury Department has indicated that taxpayers may rely on these proposed regulations pending their finalization.

For other U.S. federal income tax consequences of owning and disposing of the Notes, please see the section of the accompanying Prospectus Supplement entitled “United States Federal Taxation.”

## **USE OF PROCEEDS AND HEDGING**

The net proceeds from the sale of the Notes will be used as described under “Use of Proceeds” in the accompanying Prospectus Supplement.

To provide a hedge to TMCC, an affiliate of RBC Capital Markets, LLC will enter into a swap agreement with TMCC. Under the swap agreement, TMCC will make floating rate payments linked to the London interbank offered rate in respect of a notional principal amount equal to the aggregate principal amount of the Notes during the term of the Notes in exchange for receiving payments equal to interest due in respect of the Notes from the affiliate of RBC Capital Markets, LLC.

## **CLEARANCE AND SETTLEMENT**

The Issuer expects that delivery of the Notes will be made against payment therefor on the Original Issue Date. Under Rule 15c6-1 of the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in two Business Days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the Notes more than two Business Days prior to the Original

Issue Date will be required to specify alternative settlement arrangements to prevent a failed settlement and should consult their own investment advisor.

## **LEGAL MATTERS**

In the opinion of the Interim General Counsel of TMCC, when the Notes offered by this Pricing Supplement and the accompanying Prospectus Supplement have been executed and issued by TMCC and authenticated by the trustee pursuant to the Indenture, dated as of August 1, 1991, between TMCC and The Bank of New York Mellon Trust Company, N.A. (“BONY”), as trustee, as amended and supplemented by the First Supplemental Indenture, dated as of October 1, 1991, among TMCC, BONY and Deutsche Bank Trust Company Americas (“DBTCA”), formerly known as Bankers Trust Company, as trustee, the Second Supplemental Indenture, dated as of March 31, 2004, among TMCC, BONY and DBTCA, and the Third Supplemental Indenture, dated as of March 8, 2011, among TMCC, BONY and DBTCA (collectively, and as the same may be further amended, restated or supplemented, the “Indenture”), and delivered against payment as contemplated herein, such Notes will be legally valid and binding obligations of TMCC, enforceable against TMCC in accordance with their terms, except as may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws relating to or affecting creditors’ rights generally (including, without limitation, fraudulent conveyance laws), and by general principles of equity including, without limitation, concepts of materiality, reasonableness, good faith and fair dealing and the possible unavailability of specific performance or injunctive relief, regardless of whether considered in a proceeding at law or in equity. This opinion is given as of the date hereof and is limited to the present laws of the State of California and the State of New York. In addition, this opinion is subject to customary assumptions about the trustee’s authorization, execution and delivery of the Indenture and its authentication of the Notes and the enforceability of the Indenture with respect to the trustee and other matters, all as stated in the letter of such counsel dated June 21, 2019 and filed as Exhibit 5.1 to TMCC’s Current Report on Form 8-K filed with the Securities and Exchange Commission on June 21, 2019.
